*“Allowed to perform injections to sites named in the Orthopedic Approval Table with Board approved documentation of supervised practice completed under direct physician supervision. Total of ten (10) supervised injections for each site to be considered for approval and must be submitted within one year of approval to train. Five (5) injections for each site approved should be documented for annual maintenance of certification and this documentation may be kept at your practice location and available if asked to produce it. Mid-Levels may request approval to perform Orthopedic injections at remote site locations after documentation of supervised practice has been approved by the Board”.*
