FDA Request for Comments on Mandatory Opioid Prescriber Education The Credentials Committee recommended submitting a comment in response to the U.S. Food and Drug Administration's request for comments on Mandatory Opioid Prescriber Education, stating it is the Board's position that its existing prescriber education requirement and its original, non-industry funded, state-specific, and continually updated education program meets or exceeds the goals of the proposed federal mandatory education program and that this issue should be

left to the individual states to address through their own regulations. The motion was adopted without objection.

FSMB Call for Nominations for Elected Officials

FSMB Call for Applications for Committees and Workgroups The Credentials Committee

recommended deferring for discussion by the full Board.

After discussion by the full Board, by unanimous consent, this item was received as information.

Request for Declaratory Ruling After consideration of correspondence received from Lauren C. DeMoss, Esq., on behalf of a national home health and hospice provider, requesting an opinion regarding certification of home health orders for an Alabama resident that are written by a physician practicing in a contiguous state, the Credentials Committee recommended that the Board opine that an out-of-state physician who resides in a contiguous state, who is not licensed in Alabama, is not approved to certify home health orders for an Alabama resident. However, the Credentials Committee recommended that the Board opine that a home health order signed by a physician as described above can be co-signed by an Alabama licensed physician who reviews and agrees to the order placed by the patient's established out-of-state physician. The Committee recommended that safeguards be delineated in the ruling to mitigate the risk of fraud. The Committee recommended that Wilson Hunter, Esq., General Counsel, be approved to draft the Declaratory Ruling to be presented for final approval at the next meeting of the Board. The motion was adopted without objection.
