(1) A supervising physician must be present in the operating room or be immediately available to that operating room whenever a physician assistant is involved in the care of a patient in the operating room. Whenever a physician assistant performs or assists in performing invasive procedures with involvement deeper than the complete dermis, the supervising physician must be present in the operating room, unless otherwise specifically approved by the Board.

(2) The cumulative work time for all physician assistants being supervised by an individual primary supervising physician shall not exceed one-third hundred and sixty (1360) hours (nine FTEs) per week. The physician shall not supervise or collaborate with any combination of assistants to physicians, certified registered nurse practitioners, and/or certified nurse midwives exceeding three hundred and sixty (360) hours per week (nine full-time equivalent positions). “One full-time equivalent” (FTE) is herein described as a person/persons collectively working forty hours a week, excluding time on call.

(3) A physician collaborating with or supervising more than four FTEs per week shall engage in documented quality assurance review with each physician assistant every month for six (6) months following the submission of a registration agreement with a new physician assistant.

(4) A physician shall disclose to the Board of Medical Examiners the existence of all collaborative and supervisory agreements to which the physician is a party, including collaborative and supervisory agreements in other states, and shall not be eligible to collaborate with or supervise any combination of certified registered nurse practitioners, certified nurse midwives and/or assistants to physicians exceeding three hundred and sixty (360) hours per week (nine full-time equivalent positions), inclusive of collaborative and supervisory agreements existing in other states. Agreements with an individual certified registered nurse practitioner, certified nurse midwife, and/or assistant to physician in multiple states shall only be counted once for purposes of calculating the total number of full-time equivalent positions.

(35) A physician assistant may be registered to more than one supervising physician at any one time. The number of supervising physicians to whom a physician assistant may be registered shall be restricted by the Board if the Board, in its discretion, determines that such restriction is appropriate to maintain the quality of medical services being provided or to otherwise protect the public health, safety and welfare.

(46) A physician in a registration agreement/collaboration with a Physician Assistant, Certified Registered Nurse Practitioner or Certified Nurse Midwife totaling one-third hundred and sixty (1360) hours per week (four-nine (49) full-time equivalents (FTEs)) may request a transitional allowance increasing the total weekly
hours for the purpose of orientation of the incoming Physician Assistant. The transitional allowance shall not exceed forty-five (45) days. The physician shall request the transitional allowance in writing and specify the starting date of this FTE allowance.

(67) Employees of the State Health Department or of a county board of health are specifically exempt from the requirements of paragraph (2) of this rule. The Board of Medical Examiners, in its discretion, may determine how many physician assistants may be registered to and/or supervised by a physician employed by the State Health Department or by a county board of health.
